

Rx Help Centers

Prescription Advocacy

The cost of prescription drugs is on the rise. Due to this, many people may be considering skipping doses or neglecting to take the medications that can save their lives. We will help you get these meds, for free in many instances, to make sure you are able to stay in control of your health.

While there is a nominal monthly fee for this service, American Senior Communities will pay this fee for all members of the ASC Group Medical Plans. There is no limit on the number of medications that we will help with.

You can become one of our many Rx Help Centers customers and begin saving hundreds, even thousands, of dollars every year.

Rx Help Centers is headquartered in Indianapolis and serves as the center of all of our operations. Founded in 2009, we've grown very rapidly out of necessity. We found that an overwhelming number of people were facing financial hardships because of prescription costs.

Rx Help Centers aims to help these populations reduce or eliminate these costs with our personalized advocate services.

We pride ourselves on our superior customer service and our ability to help you SAVE!
